(for students planning to teach in childhood education, grades 1-6)This plan consists of 26
credits in biological science,12 credits in additional science and 6 credits in math. Major II
satisfies the major requirements for certification as a teacher for grades 1-6. This major requires
30 credits of education courses and should thus be initiated as early as possible.

B. Courses approved by adviser selected from the 200 or3	300 level
